

Why Little Readers®?

At Oxford Learning your child will master foundation-building skills as he or she soars into a world of books, computers, math, art and learning. Achievement, fantasy, freedom, imagination, dedication and creativity all develop as Little Readers® provides kids with the tools to expand their minds. Once they are immersed in the world of reading, the doors to their world are wide open.

Every year thousands of parents enrol their preschool-aged children in Oxford Learning's Little Readers® program. Little Readers® employs cognitive skill development (the basis for all learning) along with an enriched academic curriculum to help children learn to read before they even head off to school.

Research has shown that children who develop strong reading skills early in life learn better, are less likely to fall behind and are more successful students. Oxford Learning's internationally recognized CITA-certified program will give your child the strong foundation needed for school success.

- ✓ Strong reading and writing skills
- ✓ Introduction to math and computers
- ✓ Fine motor development
- ✓ Social development through group work
- ✓ Confidence and life long love of learning

Three years olds can read with a little help from Oxford Learning. Call today.

Summer Reading Camp Little Readers®

The Magic of Reading by Phonics:

Why wait? Young children love to learn! The Oxford Little Readers program teaches 3 to 6 year old children to read by phonics. Using rhyme, games, puzzles, computers and drills, kids learn to blend sounds into words. It is amazing what they can read when they are given the chance.

Enriched Small Groups:

In small groups, with individualized programs, children learn, grow and explore language. The Oxford approach teaches children efficient patterns of learning. A great introduction to our year-round Little Readers® program.

**Children who learn to read early are
more confident learners.**

**More Parents
Recommend
Oxford Learning**

"Thank you to your team of excellent teachers for providing Juliana with an environment conducive to building confidence in reading, writing, and mathematics. She has enjoyed your program and I believe she has excelled in it given that at five years old she is reading Magic Tree House chapter books. Be assured that I have recommended your program to my friends".

S L Dunrobin.

*"Thanks to the **Little Readers**[®], Jordan has developed the desire to learn and be the best that he can. His favourite activity when not at Oxford Learning is to play 'school' and read to friends and relatives. Thank you from the bottom of my heart."*

M.W. Kanata.

*"Shelby has attended **Little Readers**[®] for about two years. The changes that have occurred are positive and dramatic. At five years of age, not only is she able to read and spell at a high level, but she is not intimidated about learning new concepts"*

C.H. Carp.

Little Readers[®] Camp
