

KEEP YOUR CHILD'S BRAIN ACTIVE
THIS SUMMER FOR BETTER
GRADES NEXT YEAR!

Keep Learning This Summer With Oxford Learning! Kindergarten through Grade 2:

Whether your child is heading to class for the very first time or is a seasoned veteran of the second grade, the summer break is a great chance to introduce the learning habits and routines that students use in the classroom.

Tips:

- Read books together at a set time every day.
- Ask questions and have a discussion about what you are reading.
- Use flashcards or recipe cards to write down new summer vocabulary words.
- Introduce fun workbooks that cover classroom subjects such as math and reading.
- Play board games or do puzzles regularly to teach skills such as planning, strategy, organization, focus, and patience.
- Do crafts to build fine motor skills and to develop as attention-to-detail skills. Visit any online crafting sites for affordable craft ideas that suit your child's interest and age.
- Stick to routines such as bedtime, craft time, and reading time. Routines keep young kids organized and on track.
- Introduce skills that children might encounter in the next grade. Consider contacting the school for suggestions.

Try This:

- Join a class or a camp program (such as those offered at Oxford Learning) that keeps kids on a regular timetable, and keeps them mentally engaged all summer long.
- Contact your local Oxford Learning centre for more information about summer learning. Read more about summer learning and why it's important at oxfordlearning.com/summer
- Join the conversation! Follow us Twitter and like us on Facebook.
